

MATHEMATICS CURRICULUM

Theme: Number and Numeration						Primary 1
Learning outcome: Describe the procedures in solving quantitative aptitude tasks.						
Focal competency: Solving quantitative aptitude tasks involving addition and subtraction.						
TOPIC	PERFORMANCE OBJECTIVE	CONTENT – KNOWLEDGE AND SKILLS	KEY COMPETENCIES AND VALUES	LEARNING ACTIVITIES	TEACHING AND LEARNING RESOURCES	EVALUATION GUIDE
Whole Numbers (Quantitative aptitude on Addition and Subtraction)	Pupils should be able to solve quantitative aptitude tasks on addition and subtraction of whole numbers	Knowledge Quantitative reasoning on addition and subtraction of whole numbers Skills Solving quantitative reasoning problems on addition and subtraction of whole numbers	ICT and Digital Competencies as pupils enhance their learning communication by using information and technologies to watch videos on technics of solving quantitative aptitude tasks on addition and subtraction of whole numbers.	Pupils are guided to: 1. Watch short video on the technics of solving quantitative aptitude tasks on addition and subtraction of whole numbers 2. In group solve quantitative aptitude tasks on addition and Subtraction	▪ Pencils, ▪ Biro, ▪ Papers, ▪ Online resources relating to quantitative aptitudes on whole numbers ▪ Videos on technics of solving quantitative	Pupils to solve quantitative aptitude tasks on addition and subtraction of whole numbers
